

RÖHNISCH

GOLF SPRING/SUMMER 2023

Swedish Activewear for Women, by Women.

Röhnisch was first founded in 1945 by Hellmut Röhnisch, a German born entrepreneur who emigrated to Sweden in the 1930s. Hellmut won the Swedish gold medal in Gymnastics in 1945, the same year he founded Röhnisch as a supplier in Gymnastics equipment.

Since 2002, Röhnisch has focused on becoming one of the leading Activewear brands for Women, by Women. Our long history of product innovation and refined women's designs is what constantly keeps us in the forefront.

Röhnisch offers Activewear and Golfwear to women of all shapes and sizes, never compromising style for function and with sustainability at heart. As a female brand specialist with an all-female design team, we pride ourselves in making women feel confident, comfortable and strong.

R Ö H N I S C H

Spring/Summer 2023

Our Spring/Summer 2023 Golf Collection has been designed to provide women, of all shapes and sizes, with contemporary and sustainable Golfwear.

Comfort, look, and function are combined with a focus on technical performance for Golf which will provide a crossover into different seasons. We constantly refine our designs and develop our products with the female specific anatomy, qualities and needs at the centre of the collection and our main purpose is to make active women feel confident, comfortable, and strong.

This season we are again taking steps in our sustainable movement and our goal to become 100% sustainable in 2025. 87% out of our Golf Collection is now made of sustainable sourced and recycled materials.

Color and Print card

COLOR

The collisions of two opposite worlds, the natural and the digital, is reflected in a beautiful palette full of contrasts. Earthy Beige and Greens, Midtones and shades of Blue, sit alongside energetic Pink, Papaya and Lime.

PRINT CARD

Personality and energizing freshness is the centre of our graphic story. Inspired by diverse aspects of nature and the digital world we have flirted with influences from the fashion scene and combined these with blocks and sporty logos. This Seasons prints reflect a combination of sustainable durability, personality and seasonal trend.

Modern Classics

Our Modern Classic range of garments is made for an outdoor active lifestyle and offers multifunctional products in a luxurious yet classic look.

This Collection segment is inspired by a more classic Golf look and is offered in colors which reflect longevity, creating a timeless and lasting core Golfing wardrobe.

The majority of products in the Modern Classics range are sustainable helping to focus on the company goal of 100% sustainable collections by 2025.

The Modern Classics collection is designed around the ability to layer products, allowing the Female Golfer to be prepared for all unexpected weather changes and variation

Active Golf

The Active Golf collection focuses on functionality, comfort and layering to create an overall look which is sporty, minimalistic and technical. The new range consists of well-designed essentials which offer long-lasting appeal and will easily adapt from the golf course to an urban commute. The garments are designed for performance and protection and both cooling and uv effects are put directly into both the design and the chosen sustainable qualities.

Casual, sporty, and functional influences are central to this Capsule, and contemporary pieces such as tights and hoodies are now core pieces in the previously more traditional Golf wardrobe. 87 % of the golf collection consists of sustainably sourced and recycled materials, making it one of the leading in the field.

Accessories

For the SS 2023 Season we offer a wide assortment of accessories, each with the purpose to match your golfing and everyday active life. The Collection consists of practical designs and pieces which are developed to match your outfit and to fit your needs. Focusing on fewer key pieces we aim to make accessories which can stay with us for many seasons ahead. In addition 60% of our Accessories collection is now sustainable.

Padel

The main focus for our Spring/Summer 2023 Padel Collection is to improve the performance and the experience on the court, combining a clean sophisticated color pallet with high performance materials for a sporty yet feminine look.

The Collection contains quick-dry jersey and classical 4-way stretch fabrics that enhance both mobility and Padel specific movements.

100% of the padel collection consists of recycled materials, mixed with elastane for great movement, making it one of the leading in the field.

Maternity

We want to encourage an active lifestyle and believe that you shouldn't have to compromise on comfort and function when being pregnant. Therefore we simply decided to launch some of our best-selling golf pieces in sustainable maternity options.

As far as we reached for SS23, Main Collection

- 95% on Active Main collection & Underwear (SS22, 88%)
- 87% on Golf Main collection (SS22, 84%)
- 100% on Beach (SS22, 100%)
- 100% on Padel (SS22, 50%)
- 60% on Accessories (SS22, 52%)

Sustainable and classified fabrics and treatments we use

- Recycled Polyester (from Pet)
- Recycled Polyamide (mainly from fishing net)
- Organic Cotton (cultured without chemicals and better for the farmers due to zero toxic)
- Recycleable products (that can be made into new garments)
- Biodegradable products (that is biodegradable by nature)

Decision taken by us as a company

- We do not use fur or leather
- We say no to “mulesing wool”
- We use RDS down standard
- We don't use antibacterial treatments (Biocides)
- Clever Care  The symbol will be found in all our garments)
- Hangtags in recycle paper and with soy based print
- We have recycled polyester in our shopping bags both Online & in store
- We are 100% Fluor Carbon free
- We are 100% Fluor Carbon free

CLOTHES AVERY PROGRAM

This season we have decided to replace the down in our Light down program with a functional "Fake down" polyester filling from THERMOLITE®.

THERMOLITE® EcoMade T-DOWN technology is made from 100% recycled PET bottles. This 500 fill power synthetic insulation offers several advantages over down: higher loft, better moisture resistance, warmer when wet, and dries faster. This technology is also breathable, soft and lofty with an excellent hand, and offers high compressibility (packable) with rapid recovery power (<https://www.thermolite.com/en/business/search-technologies/thermolite-ecomade-t-down-technology>)

The fabric and lining are made in 100% Recycled Polyamide and the zippers in 100% Recycled Polyester zippers. Flattering panels, cozy collar, and Lycra cuffs makes these products perfect for winter golf as well as everyday lifestyle.

EVELYN PROGRAM

Stay warm, dry and yet classy in our new Evelyn program. The program is made in a 100% Recycled Polyester fabric, windproof, waterproof up to 5000 mm with breathability 5000 g/m²/24. The filling is made in THERMOLITE® EcoMade T-DOWN.

Jacket and vest have a two-way zipper at front, corduroy details, inside pocket. Adding the wrap skirt, you are well equipped for easy layering both on course and off course.

STORM RAIN PROGRAM

Our waterproof products are made in high performance stretch fabric with biodegradable membrane backing. They are waterproof yet highly breathable. The waterproof garments are complete with taped seams and water-resistant zippers.

- Fluorocarbon-free
- Biodegradable membrane
- Soft, 2-way stretch fabric
- Windproof
- Breathable 10,000g/m²/24h
- Waterproof 10,000 mm
- Waterproof zippers
- Long zippers on pants

FORCE JACKET AND VEST

Stay warm during a chill day at the court in these styles with down filled panels and softshell fabric.

- Wind proof panels with woven channels that prevents down leaking.
- RDS down filling
- Softshell fabric with 3-layer function
- Wind and Water resistant
- Warming and soft fleece at inside of Softshell fabric
- Several pockets for your belongings

LEXI PANTS AND INSULATE PANTS

Don't let the cold weather stop you with these pants in our softshell fabric.

- Softshell fabric with 3-layer function
- Face side made in recycled polyester
- Wind and Water resistant
- Warming and soft fleece at inside
- Two-way stretch
- Pockets at front and back

JOLENE PILE

- Warming Pile fabric
- Wind stretch fabric on shoulder and yoke
- Made in 100% Recycled Polyester
- Zip Pockets
- Regular fit

SS23 Padel and Accessories / Materials

PADEL
